FIND A LOCAL PROVIDER

Choose whether you are open to opportunities

Control your career interests independently of practice management.

For: All eligible professionals

Approved guide | Revision 1 | Reviewed 2026-11-05

Next review: 2027-02-05

Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. Open My Career Opportunities. Select Not looking, Open privately or Open publicly. The default is off/private.

2. Choose interests such as part-time work, PRN, remote work, consulting, teaching or collaboration. Add preferred locations, specialties, arrangements and optional availability.

3. Save preferences and review contact permissions separately. Private interests are limited to eligible approved recruiters or employers; your employer is not automatically notified.

4. Change or disable your interest whenever you like. Staging matching uses synthetic accounts; live recruiting delivery and disclosure remain disabled.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

A public indicator does not disclose your private email or personal phone. Practice administrators cannot change your personal career choices.
