Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. Sign in, open Set up my free profile, and choose whether you are an individual professional or adding a practice.

2. Individual professional: enter your name, designation and a short introduction, add your NPI if you have one, and confirm the information is yours. Your listing and free website are live straight away.

3. If you give an NPI it is checked against the federal NPI registry automatically. You do not need to do anything.

4. If someone with your exact name is already listed in your city, add your NPI so we can tell you apart. If the existing profile is yours, sign in with the account that created it.

5. Adding a practice: enter its name and address. If we already have it, you are taken to confirm it is yours; otherwise it is saved privately until you confirm it. See Confirm that a practice is yours.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

Cannot find a profile you created? Sign in with the email you used when you created it, or email support@findalocalprovider.com.
