FIND A LOCAL PROVIDER

Choose Available for Expert Commentary

Save an optional willingness to discuss your professional expertise.

For: Individual professionals

Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. Open My FALP Guide and expand Professional media preferences.

2. Choose whether you want to save Available for Expert Commentary and enter the topics you wish to discuss. It starts off.

3. Save your preference. This initial feature is private to your personal account; no public badge, journalist matching or contact disclosure is activated.

4. Turn it off whenever you want. Use your actual expertise and current credentials; this preference is not an endorsement or credential verification.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

Journalist discovery and incoming media inquiries are not connected. Saving the preference does not invite anyone to contact you.
