FIND A LOCAL PROVIDER

Check your Google Business Profile

Compare business details and choose free DIY guidance or a proposed one-time service.

For: Verified practice and pharmacy managers

Approved guide | Revision 1 | Reviewed 2026-11-05

Next review: 2027-02-05

Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. Select the authorized practice or pharmacy in GBP Checkup. Staging connects a synthetic Google fixture only.

2. Run the checkup and compare name, address, phone, services, categories, hours, website and booking links with the directory evidence.

3. Read the free assessment and DIY steps. Choose Do it myself for free, or inspect the optional Have us do it proposal at $99 once.

4. For a managed proposal, review the exact changes and consent requirements. Fixture submission results may include pending Google review. No payment or real Google change is active.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

Live Google account connection requires approved API access and permissions. No instant publication is promised; the staged service does not charge your account.
