FIND A LOCAL PROVIDER

Set up your free profile

Enter your information once. Your listing and free website are created for you, and every change saves automatically.

For: Professionals and practice owners

Approved guide | Revision 5 | Reviewed 2026-11-14

Next review: 2027-02-05

Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. About you: create your individual profile with your name, designation and a short introduction. As soon as you confirm your information, your listing and free website are live. Your account email stays private.

2. What you offer: choose your field and the services you actually provide. Optional payment, insurance, accessibility, language and office-hours choices are checkboxes.

3. Make it yours: edit your introduction, add a welcome note, photos and social pages. Upload a photo, choose its shape, arrange it and add an optional caption.

4. Review: see what patients see. Change anything at any time from My Dashboard. A short message shows Saving, then Saved, or tells you if something could not be saved.

5. To take your listing and website out of public view, open My Dashboard and choose Hide my profile. Your information stays saved and you can show it again whenever you like.

6. A practice becomes public after you confirm it is yours and authorize publication. Everything you enter is kept in the meantime. See Confirm that a practice is yours.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

If something does not save, the message explains what to check. Skip optional fields and return later. Photos need current access to the profile.
