FIND A LOCAL PROVIDER

Let a practice feature your original work

Share selected content without transferring ownership.

For: Professional authors and affiliated practices

Approved guide | Revision 1 | Reviewed 2026-11-05

Next review: 2027-02-05

Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. Select your own professional content in Website Studio. Confirm both sides of the practice affiliation.

2. Choose the selected approved item and grant permission to the specific affiliated practice, with an expiration if appropriate.

3. The practice must accept the sharing permission. Its management access does not make it the owner of your work.

Optional, free help. Keep patient details, passwords and private contacts out of help requests.

4. Revoke sharing or end the affiliation when needed. Your personal website and original content remain yours.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

A draft, expired grant, ended affiliation or missing recipient acceptance cannot be featured as approved shared content.
