FIND A LOCAL PROVIDER

Add social links and prepare a manual post

Connect your existing profiles and reuse approved original content carefully.

For: Professional and business managers

Approved guide | Revision 1 | Reviewed 2026-11-05

Next review: 2027-02-05

Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. Add your official public social profile URLs in Profile Studio or Social Connections. A profile link is not an authorized API connection.

2. In the staging Social Center choose an approved original publication and a supported destination to generate a deterministic caption draft.

Optional, free help. Keep patient details, passwords and private contacts out of help requests.

3. Edit the wording, verify rights and preview the draft. Practice reuse requires the author permission and a valid affiliation.

4. Copy or export a draft for manual review. Staging does not publish to social networks, activate advertising or make paid AI calls.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

Automatic OAuth connection, delivery and paid AI adaptation are inactive. A saved caption does not mean anything was posted externally.
