FIND A LOCAL PROVIDER

Explore optional tools without buying

Understand what is free, available or only proposed.

For: All participants

Approved guide | Revision 1 | Reviewed 2026-11-05

Why it may help

Use the free tools at your own pace, with control over your information.

Before you begin

A free personal account is all you need. You can edit your own profile straight away; a practice is edited once you have confirmed it is yours.

Choose your task > Follow steps > Check status

Step by step

1. Complete your free listing, website and original content without a purchase.

2. Open the Upgrade Center only when useful. Read each availability label and the Feature, Advantage and Benefit explanation.

3. Dismiss suggestions or change their frequency using the available controls. Dismissing an idea does not remove a free feature.

4. Treat proposed AI, integrations and paid service previews as inactive unless separately authorized and clearly activated. Staging never collects payment.

What to expect

What you enter is saved for you, and each tool shows whether it is public. Reading this guide changes nothing.

If something is not working

An interesting suggestion is not a subscription, order or consent to contact you. No sales calls. No obligation. No required subscription.
